

Labor Must Continue MLK's Fight for Healthcare Justice

Guarantee Healthcare for ALL with Medicare for ALL

“

*Of all the forms of
inequality, injustice in
healthcare is the most
shocking and inhumane.”*

— Dr. Martin Luther King, Jr.

These powerful words were spoken by Dr. King as he launched a direct-action campaign against hospitals that were discriminating against African-American patients. Today, discrimination means we still have staggering healthcare disparities that lead to African-American women and babies dying at alarming rates and high rates of untreated diabetes, sickle cell anemia, and HIV. We must provide a single standard of care by passing H.R. 676/S. 1804 and guaranteeing healthcare to ALL residents through a single-payer, universal healthcare system. As labor recommits to Dr. King's fight for justice, we remember that his vision included healthcare justice.

**Let's realize that vision
with H.R. 676/S. 1804!**

See no end to union healthcare fights?

- Healthcare is the number one reason for strikes AND always a top fight at the bargaining table.
- More money on the bargaining table goes to healthcare increases instead of wages and pensions — and still out-of-pocket costs are going up.
- Many members don't meet hourly threshold to get or maintain healthcare for themselves or their families.
- Have a great healthcare plan? Will you after the next round of bargaining? Federal attacks mean employers shift costs to members — often with fewer benefits.

Go on the offense with H.R. 676/S. 1804 — win healthcare justice for ALL

- FINALLY get healthcare off the bargaining table.
- Comprehensive benefits; no deductibles or co-pays.
- Money saved on healthcare can go to wages and pensions.
- Preserve Taft-Hartley funds.
- Eliminate healthcare as a barrier for organizing.
- Cover retiree healthcare benefits.
- End plans that exclude family members or covers them at high costs.
- Replace premiums, deductibles, and co-pays with progressive, public financing.
